Kavita Nair

Bengaluru, India | kavita.nair@email.com | +91-98765-67890

PROFESSIONAL SUMMARY

Applied Data Scientist with 2 years of experience developing machine learning models, ETL pipelines, and statistical analysis tools. Proficient in Python, SQL, predictive modeling, and feature engineering.

TECHNICAL SKILLS

Languages: Python, SQL, R
ML Libraries: scikit-learn, XGBoost, pandas, NumPy, LightGBM, basic PyTorch
Tools & Cloud: Git, Docker, AWS (S3, Athena), Tableau, PostgreSQL

WORK EXPERIENCE

Data Scientist — AlgoMatrix Solutions (2022 – Present)
• Developed churn prediction and customer segmentation models using gradient boosted trees and statistical clustering.
• Built reproducible ETL and feature extraction pipelines in Python and SQL reducing data processing bottlenecks by 25%.
• Collaborated with product engineers to deploy predictive scoring endpoints via REST APIs.

EDUCATION

M.Sc. in Data Science & Big Data Analytics, Pune University (2020 – 2022)

PROJECTS

• **Retail Demand Forecasting:** Time-series forecast model using Prophet and XGBoost deployed to AWS S3 / Lambda.

• **NLP Sentiment Analyzer:** Customer sentiment analysis tool trained on eCommerce review datasets using scikit-learn.
